### **STIP AMENDMENT 02S-020 NOTICE**

#### **SUMMARY**

This amendment programs \$35,000,000 in Regional Improvement Program (RIP) funds from San Diego County's Unprogrammed Share Balance for seven new Regional Arterial System projects in FY 2006-07.

#### **RECOMMENDATION**

The San Diego Association of Governments (SANDAG) is requesting this amendment. The Department of Transportation (Department) has reviewed the amendment and found it to be consistent with the California Transportation Commission (Commission) adopted State Transportation Improvement Program (STIP) guidelines.

#### **RESOLUTION**

Resolved, that the California Transportation Commission (Commission) revise the 2002 State Transportation Improvement Program (STIP) at the end of the 30-day notice period as shown on Attachment A:

**BACKGROUND**

This amendment programs \$35,000,000 in Regional Improvement Program (RIP) funds from San Diego County's Unprogrammed Share Balance for seven new Regional Arterial System projects in FY 2006-07.

**Project #1 Clairemont Mesa Boulevard Interchange Reconstruction (PPNO 0987)**

This amendment programs \$4,400,000 in RIP funds for reconstruction of the Clairemont Mesa Boulevard Overcrossing. The interchange experiences congestion as the approaches to the Overcrossing have been widened to six lanes, but the Clairemont Mesa Boulevard Overcrossing remains at four lanes. This project will reduce congestion and improve pedestrian and bicycle safety.

**Project #2 Route 805/Olympic Parkway Interchange Widening and Reconstruction (PPNO 0980)**

This amendment programs \$7,000,000 in RIP funds for a bridge widening and reconstruction at Olympic Parkway Interchange. The project will widen the two-lane bridge to four lanes and widen the access ramps.

**Project #3 El Camino Real Widening and Reconstruction (PPNO 0981)**

This amendment programs \$6,937,000 in RIP funds for roadway widening and reconstruction on El Camino Real. Existing El Camino Real is a two-lane rural roadway without shoulders or pedestrian walkways. Although turn lanes exist, vehicle queues approaching one-half mile in length occur. The project will widen the existing facility to four lanes, adding pedestrian walkways, bike lanes, equestrian/pedestrian crossings and landscaped medians.

**Project #4 Genesee Avenue Widening (PPNO 0982)**

This amendment programs \$963,000 in RIP funds for roadway widening on Genesee Avenue. The project will widen the existing roadway from four lanes to six lanes to relieve congestion between high-density employment areas and Route 5.

**Project #5 Rancho Santa Fe Road Widening (PPNO 0988)**

This amendment programs \$4,000,000 in RIP funds for roadway widening on Rancho Santa Fe Road. The existing facility is a two-lane, undivided arterial which experiences congestion. The project will widen the road to four lanes, add sidewalks and soundwalls and upgrade bus facilities.

**Project #6 South Santa Fe Avenue Widening and Reconstruction (PPNO 0985)**

This amendment programs \$1,500,000 in RIP funds for roadway widening and reconstruction on South Santa Fe Avenue. The project will widen the existing roadway from two lanes to four lanes to increase the level of service. The project will also add three traffic signals, plus a signal and railroad crossing gate at a railroad crossing, to be designed by North County Transit District.

**Project #7 Route 78/ Las Posas Road Interchange Construction (PPNO 0986)**

This amendment programs \$10,200,000 in RIP funds to construct a new interchange at Las Posas Road. Currently, no freeway access exists at Las Posas Road. This project will relieve congestion and improve operations on the Route 78 corridor as well as two adjacent interchanges.
